<i>Exceptions</i>		
MSc by Research (Science)	£9,250	£1,540
MSc Food Safety and Quality Management e-learning	£5,400	£900

Please note

- For Home and EU Postgraduate Taught students and students undertaking an MSc Research (Science) or an MSc Research (Psychology) assessed as paying fees at the home rate, tuition fees are subject to an annual fee setting exercise and will rise annually by no more than RPI-X +3% (Retail Price Index excluding mortgage interest payments +3%).
- We would only consider an increase to the fee rate for continuing students to reflect the increased cost of delivering the programme in subsequent years.
- The part-time fees above only apply to Home and EU fee payers.
- The part time fees you are charged will depend on the number of credits you are required and permitted to study per academic year and will be subject to the annual fee increases as outlined above.
- Please note that students starting programmes in subsequent years will pay the published fee for new entrants to the relevant Academic year and will come under a different set of arrangements to those advised here.

Equivalent or Lower Qualifications (ELQs)

Students who are seen as studying ELQ's may not be eligible for elements of student support such as Tuition Fee loans and postgraduate loans.

Eligible students starting certain part-time programmes only from 2015-16 academic year in Engineering, Computing Sciences and Technology may be eligible to apply for part-time student support from Student Finance England. The rules are complex and you should contact Student Finance or your Student Support provider for more information.

Full information on Equivalent of Lower Qualifications (ELQs) can be found at <http://www2.gre.ac.uk/current-students/student-finance/elq/about>
