Liberal Arts & Sciences [FLAS]	Law & Criminology [LAC]	P04122	LLB	Law	GMC	The Solicitors Regulation Authority's (SRA's) pass mark for a qualifying law degree (QLD) is 40%. If a student marginally fails only one of the seven foundations of legal knowledge subjects, the SRA may, at its discretion, in exceptional circumstances, condone the single failure and confirm the award of a QLD. (A student is considered to have marginally failed a foundation subject if they attain a mark of not more than 5% lower than the QLD pass mark of 40%.) For this reason, students are generally required to re-sit a foundation subject rather than compensate a fail in the compensatable range. Furthermore, the PAB rarely compensates a non-core subject in Yrs 1 and 2 because if a student were to fail a foundation Yr 3 subject the SRA would be unlikely to exercise their discretion to award the student a QLD. Exceptionally, the PAB will compensate a failure: if, for example, it decides that based on the academic profile the student is unlikely to obtain	25/05/2023	From Sept 2022 Foundation modules which cannot be compensated: Level 4 - LAW1098/LAW1099 Level 5 LAW1275/LAW1142/LAW1143/LAW1253 Level 6 - LAW0793

	Design [DSC]	P13241	MArch	Architecture Part 2	GMC	RIBA procedures for validation and validation criteria for UK and international modules and examinations in architecture' 2011 (updated 2 May 2014) Page 3; NB: a common feature of most university degree schemes are arrangements for condoning or compensating failed marks. 'Condonement' of a failed mark usually means to overlook or permit it, allowing a student to proceed; 'compensation' implies a marginally failed mark (usually within 2-3% of a pass grade) has been raised to pass level because of balancing strengths elsewhere in the academic portfolio. A problem arises if it is possible for a student to progress to the award of part 1 or part 2 without achieving a pass mark in all academic modules identified as mapping against the validation criteria. The RIBA therefore strongly recommends that validated modules opt for a no condonement clause in all modules contributing to achievement of the Graduates Attributes and General or Professional Criteria. Since all the MArch modules are mapped against the the Part 2 criteria, then all students need to pass all modules to fully meet criteria."	25/05/2023	No compensation on any modules	

		P01101	BA H	Architecture	GMC	Compensation may be granted (as per the University's regulations) for level 4 modules only, EXCEPT for level 4 design modules (ARCT1038, ARCT 1065 & ARCT1069). Compensation may not be granted for level 5 or level 6 modules. In the case of part time year 2 students, who do a mixture of level 4 & 5 modules, compensation will not be allowed for level 5 modules or for level 4 design modules. (Quote 2013-14 Student Handbook but NOT RIBA) RIBA procedures for validation and validation criteria for UK and international modules and examinations in architecture' 2011 (updated 2 May 2014) states: Page 35; NB: a common feature of most university degree schemes are arrangements for condoning or compensating failed marks. 'Condonement' of a failed mark usually means to overlook or permit it, allowing a student to proceed; 'compensation' implies a marginally failed mark (usually within 2-3% of a pass grade) has been raised to pass level because of balancing strengths elsewhere in the academic portfolio. A problem arises if it is possible for a student to progress to the award of part 1 or part 2 without achieving a pass mark in all academic modules identified as mapping against the validation criteria. The RIBA therefore strongly recommends that validated modules opt for a no condonement clause in all modules contributing to achievement of the Graduates Attributes and General or Professional Criteria.	25/05/2023	Compensation may be granted (as per the University's regulations) for level 4 modules only, EXCEPT for level 4 design modules (ARCT1038, ARCT 1065 and ARCT1069). Compensation may not be granted for level 5 or level 6 modules.

		P12450	MSc	Computer Science (UNY Tirana)	Tirana	This is a dual award and UNYT has its own GPA system to award. An externally validated programme. UNYT awards the MSc Computer Science to students who complete successfully according to the UNYT taught regulations. The agreement with UNYT allows the University to award an MSc provided that that students meet essential requirements for a UK award. Students are registered with UoG but no records of marks are kept in Banner. The university appoints an external examiner for the programme who goes to UNYT to moderate work and who sits on a PAB held at Greenwich where decisions to award a UoG MSc are made.		UNYT are to supply the UoG with the GPA to award.	

		UG Full Chartered IT Professional (CITP) / Partial Chartered Engineering (CEng)	GMC	BCS Accreditation – from 2022 Academic Session, UG can only be compensated on 30 credits across all levels while PG can only be compensated on 20 credits. Due to the changes introduced by the Engineering Council, for the Sep 2022 intake onwards the following derogation is sought from the Academic Council: a.The project module cannot be compensated. b.For any 360-credit (Or 480-credit extended) undergraduate programme that has a partial CEng accreditation there can be no more than 30 credits of compensation applied. c.For any 180-credit postgraduate that has a partial CEng accreditation approved there can be no more than 15 credits of compensation applied. d.For other programmes that have a BCS accreditation such as CITP, then no more than 30 credits per year can be considered for compensation.	25/05/2023	Maximum 30-credits compensation across all levels UG programmes - the PLs have agreed that L4 will NOT be compensated
